

Transport Anchor with Cross Pin Starcon

Product information

Starcon transport anchors with cross pin with inside thread for transport and fixing of concrete elements. The transport anchor with cross pin can be mounted directly to the reinforcement mesh in precast concrete elements. Using a transport anchor with cross pin is one of the best ways of lifting and fixing concrete wall elements or tunnel elements. Transport anchors with cross pin are also available with metric thread.

Material: Steel S355.

Marking: According to standard, Load Group+Starcon, batch code, CE.

Temperature range: 100°C.

Finish: Electro-galvanized (silver).

Standard: CEN/TR 15728 - VDI/BV-BS 6205

Note: The delivery time for the individual products is estimated and if the desired quantity is not in stock, please contact [CERTEX Danmark A/S – Starcon](#) for information on the applicable delivery time.
