

STA Z 2-hole Anchor Starcon

Product information

The Starcon STA-Z transport anchor, also known as the two-hole anchor, is designed with two holes, which ensures a strong anchoring in the concrete by using reinforcement in the lower hole. The anchor head contains a hole for attaching a Starcon ring coupling.

This design allows for a high lifting capacity in thin elements, making the STA-Z transport anchor ideal for use in precast concrete elements that require reliable and safe lifting.

Areas of application: Lightweight concrete, low concrete compressive strength, wells and thin walls.

Advantages: Quick connection/disconnection with moulds and Starcon ring coupling

Load group: 1.4t – 26t

Technical information: CE marking according to MD 2006/42 EF

Starcon product is designed according to EN13155-2009 and follows the guidelines of VDI/BV-BS 6205 and DS/CEN/TR 15728.

EPD: Our Environmental Product Declarations (EPDs) are available in the LCA NO calculator/software. These EPDs have been prepared in strict accordance with ISO 14025 and EN 15804 standards.

Download the EPDs from the LCA database:

Untreated Products: [Starcon Lifting and Handling Systems for Concrete elements - Untreated - EPD Norge](#)

Surface treated Products: [Starcon Lifting and Handling Systems for Concrete elements - Surface Treated. - EPD Norge](#)

Marking: CE-marked, batch code, load group + S(Starcon)

Finish: Untreated - Corrosion class C1 - ISO 12944-2. Hot-dip galvanized - Corrosion class C3 - ISO 12944-2

Note: The delivery time for the individual products is estimated and if the desired quantity is not in stock, please contact [CERTEX Danmark A/S – Starcon](#) to get information about the applicable delivery time.
