

Lifters, standard coupling Starcon

Product information

The Starcon Lifting Eye is a special steel component made for concrete casting. The spherical claw grips on to the head below the Starcon head anchor. The Starcon lifting eye has been tensile tested with 2 times of the safe load. Unique certificates are made for each delivery.

The Starcon product is designed according to EN13155-2009 and follows the guidelines in VDI/BV-BS 6205 and DS/CEN/TR 15728.

Material: Steel

Marking: CE-marked, UKCA-marked, Batch code, Load group, WLL, Starcon

Finish: Electro galvanized

Safety factor: 4:1

Note: The delivery time for the individual products is estimated and if the desired quantity is not in stock, please contact [CERTEX Danmark A/S – Starcon](#) for information on the applicable delivery time.

Part Code	Load grp.	d mm	L mm	Ø mm	Weight kg	Delivery time
