

## Super Shackle G-5263

### Product information

Bow shackle with safety bolt.

Handling of the shackle is easy due to the smaller size and weight. The shackle also offers a double safety (split pin and safety bolt) which prevents accidental unscrewing of the pin. Furthermore, the long-term durability of the shackle is assured as a result of its galvanization. Wear and tear of the counter components such as wire rope is also minimized as the chamber in the shackle eye hides the screw thread.
