

Lifting Socket with long-wavy Tail Bar

Product information

Lifting socket with long wavy-tail bar. The socket is anchored with a reinforcing bar. Owing to the relatively long anchorage length, these sockets are particularly for casting into wall-type elements parallel with the plane of the wall.

Material: Steel Grade E355+N

Marking: According to standard, CE-marked

Finish: Galvanized

Standard: CEN/TR 15728 - VDI/BV-BS 6205
